

TOMATO

INTERNATIONAL MARKETS 2020

Agriculture is perpetually changing: new agronomic constraints, increasing viral and pest pressure, new cultivation methods, environmental issues, new consumption expectations and trends, etc. are all challenges we have to face every day.

Seed is the first link in sustainable agriculture and our role as a seed company is therefore to bring you varietal solutions to help you take up these new challenges.

Although the agronomic qualities of plants are fundamental to the success of your harvests, the tomato is still the pleasure vegetable par excellence!

Producing fine and most importantly good tomatoes is ensuring customer satisfaction, as confirmed by studies conducted in recent years*.

The ribbed and heart-shaped tomato segment particularly follows this basic trend, as testified by the success of our Marbonne, Margold, Marnero and Cauralina varieties. Forerunner on taste, we are offering for next season new varieties with totally new colours and aromatic profiles that will delight tomato enthusiasts seeking new flavours.

** Kantar World Panel: "Fresh tomatoes: make you want to eat this essential vegetable more often." - June 2018 and "Understanding tomato purchases in France better" - February 2019*

The standard abbreviations :

ToMV: Tomato mosaic virus	Va: Verticillium albo-atrum
TSWV: Tomato spotted wilt virus	Vd: Verticillium dahliae
TYLCV: Tomato yellow leaf curl virus	PI: Pyrenochaeta lycopersici
Pf: Passalora fulva (ex Fulvia fulva)	Ma: Meloidogyne arenaria
Fol: Fusarium oxysporum f.sp. lycopersici	Mi: Meloidogyne incognita
For: Fusarium oxysporum f.sp. radicis-lycopersici	Mj: Meloidogyne javanica
On: Oidium neolyopersici (ex Oidium lycopersicum)	HR: High/standard resistance
	IR: Intermediate/moderate resistance

The advice and suggestions, as well as the information mentioned above, are provided for guidance only and can not therefore provide a guarantee of results.

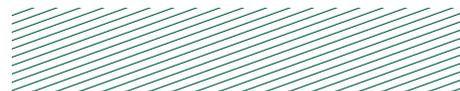

All varieties illustrated in this paper were photographed under favourable conditions ; their behaviour can vary depending on culture conditions.

+ ORGANIC

For some of our varieties, organic seeds are also available. You can easily identify them with the ORGANIC label. If you wish to obtain more information on our product range, feel free to contact your Gautier Semences Sales representative.

SNACKING

LICENSED VARIETY

SAOPOLO HF1

The sweet red cherry on the vine

HR ToMV:0-2/Va:0/Vd:0/Fol:0-1-2/Pf:A-E **IR** Ma/Mi/Mj

Shiny red cherry for truss harvest of 12 to 14 fruits.
Great fruit colour and vine presentation.
Excellent taste balanced between sweetness and acidity. Average weight of 13-15 grams.
Open and balanced plant.
For heated crop production hydroponic and organic.

LICENSED VARIETY

SORENTYNO HF1

Tasty cluster cherry with conservation and resistances

HR ToMV:0-2/Va:0/Vd:0/Fol:0-1-2/Pf:A-E

IR Ma/Mi/Mj/TYLCV

Red and shiny cherry for cluster harvest of 12 to 14 fruits
Good coloration and conservation of fruits.
Excellent taste with high sweetness and brix.
Average weight 13-15g grams
Strong and balance plant.

LICENSED VARIETY

RIVOLO HF1

Red cherry on the vine with great taste and presentation

HR ToMV:0-2/Pf:A-E **IR** Ma/Mi/Mj

Red cherry with strong presentation on the vine.
Very good aromatic profile.
Average weight 10-12g grams
Vigorous and vegetative plant with short internodes.
Suitable mainly for hydroponic and heated productions.

TASTYNO HF1

Delicious and resistant to TYLCV

HR ToMV:0-2/Pf:A-E **IR** Ma/Mi/Mj/TYLCV

Cherry tomato for loose harvest, combining taste quality, productivity and resistance to TYLCV.
Vigorous plant with ramified clusters. Very productive.
Round fruit, bright red, with excellent flavour.
Average weight: 12-15 grams. Excellent shelf-life.
For non-heated or heated protected crop production, in soil or hydroponic.

+ ORGANIC

GAUTIER
seeds

BELLACIO HF 1

Tasteful cherry plum

HR ToMV:0-2/Fol:0/For/Pf:A-E **IR** Ma/Mi/Mj

Cherry plum tomato with a nice red colour. Average weight 10-14 grams. Very tasteful. Variety for loose harvest. For protected crop production.

APETICIO HF 1

A flavour second to none

HR ToMV:0-2/Fol:0/For/Pf:A-E **IR** Ma/Mi/Mj

Egg-shaped cherry tomato, very tasteful. Average weight 9-12 grams. For protected crop production.

C535* HF 1

High yielding cherry plum

HR ToMV:0-2/Fol:0/Pf:A-E **IR** Ma/Mi/Mj

Red baby plum with 18-20 grams fruit weight on average. High yielding variety, adapted for loose picking in high tech greenhouses with good heating capacity.

RAZOLO HF 1

The orange cherry plum: attractive and tasty

HR Va:0/Vd:0/Fol:0

Cherry plum tomato of a beautiful orange colour. Nice fruity flavour and very good fruit quality throughout the season. Average weight: 10-14 grams. For protected crop production.

SWEEDOR HF 1

Delicious and eye-catching yellow cherry

HR ToMV:0-2/Va:0/Vd:0/Fol:0/Pf:A-E

IR Ma/Mi/Mj

Yellow round cherry on the vine. Average weight 12-14 grams. Attractive deep yellow fruits with good Brix level and flavour. Vigorous and generative plant for long crop production. Suitable for heated and non-heated crop production.

C591* HF 1

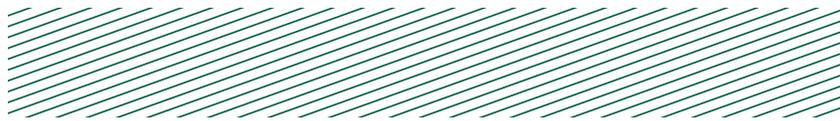

The tasty and attractive yellow cherry on the vine

HR ToMV:0-2/Va:0/Vd:0/Pf:A-E **IR** Ma/Mi/Mj

Cherry on the vine with a very attractive yellow color and a great taste. High brix level and crunchy texture. Average weight of 12-14 grams. Improved cracking tolerance. Variety adapted to high-tech greenhouses.

*The varieties presented under a number are available for testing until their registration in the official catalogue.

COCKTAIL

K538* HF1

TRIAL

Great taste and presentation

HR ToMV:0-2/Fol:0/For/Pf:A-E **IR** Ma/Mi/Mj

High flavor red cocktail with a good presentation on the vine.

50-55 grams fruit weight on average.

Really vigorous plant ensuring important yield.

TANKINI HF1

Cocktail truss combining productivity and uniform grade

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Ff:A-E

Uniformly graded truss of 8 to 10 fruits.
Average weight 35 to 45 g.
High yielding, vigorous and productive plant.
For heated hydroponic crop production.

DELICASSI HF1

Original, delicious mini San Marzano

HR ToMV:0-2/Fol:0/Ff:A-E **IR** Ma/Mi/Mj

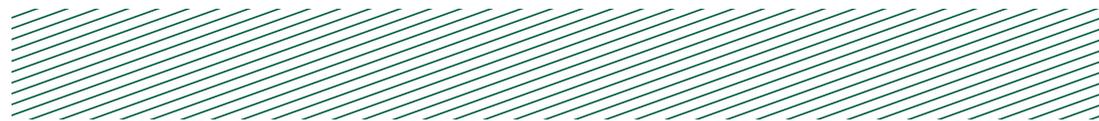

Mini San Marzano variety, full of flavour, for loose harvest. Vigorous plant, with excellent setting and short internodes. Cylindrical, very firm, bright glossy red elongated fruit. Excellent taste quality. Average weight 25 to 30 g.
For soil-grown and soil-less, heated and unheated protected crops.

GAUTIER
seeds

*The varieties presented under a number are available for testing until their registration in the official catalogue.

TRUSS

LANCASTER G544 HF 1

High yielding cluster tomato

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Pf:A-E

IR On

Cluster tomato with high yield potential.
Nice red color fruits of 150 grams. The variety should
be pruned at 5 or 6 fruits.

Resistant to powdery mildew and cladosporium.
Adapted to high tech greenhouses.

DAVOLO G541 HF 1

Perfect cluster presentation and full
of flavor

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Pf:A-E

Great looking 6 fruits cluster with a high aromatic profil.
Its texture combine crunchy and juicy.
Taste is well balanced between sugar and acidity.
Average weight of 90 grams.
Vigorous and vegetative plant.
Adapted for high-tech greenhouses.

RIBBED

RP574 MARPINK** HF1

NEW

The tasty pink ribbed tomato

HR ToMV:0-2/Va:0/Vd:0

Large ribbed pink tomato that weight around 350 grams. Fruits have an enjoyable melting texture and an original pink flavor. The plant is short and vigorous. All kinds of crop production.

DJ549 MARVORI** HF1

NEW

The ivory ribbed tomato with a unique taste

HR ToMV:0-2/Pf:A-E

Ribbed fruit with a very unique color, light yellow to ivory. Fruits have an original acidulous taste and weight 200 grams on average. Suitable for both heated and non-heated crop production.

DN573 MARBRUNI** HF1

NEW

The chocolate ribbed tomato, original and productive

HR ToMV:0-2/Va:0/Vd:0/Fol:0/For/Pf:A-E

IR Ma/Mi/Mj/TYLCV

The chocolate colour and the taste of this ribbed tomato are really original. Average weight of 280 grams. The plant is modern, adapted to high tech crops and productive.

**Variety under provisional sales authorization, denomination under validation.

GAUTIER
seeds

Best flavour in ribbed tomato

HR ToMV:0-2/Fol:0

Red ribbed tomato with an excellent flavour. Vigorous and productive plant. Flat fruit of intense red colour with green collar, very ribbed. Keeping his quality after harvest. Juicy and tasteful fruits. Calibre 82-102. Average weight: 190-250 grams. Suitable in soil or hydroponic. Grafting on one head recommended in long crop production and early sowing.

+ ORGANIC

MARGOLD HF1

Original colour and flavour

HR ToMV:0-2/Va:0/Vd:0/Fol:0/Pf:A-E

Yellow ribbed tomato with green shoulders. Average weight 190-250 grams. Variety with original presentation and sweet flavour. Grafting on one head and cluster pruning 2/3 fruits recommended. All kinds of crop production.

+ ORGANIC

MARNERO HF1

Sweetness and personality

HR ToMV:0-2/Va:0/Vd:0/Fol:0/For

Black ribbed tomato uniformly graded fruit. Average weight 190-250 grams. Grafting and cluster pruning 3 fruits recommended. All kinds of crop production.

+ ORGANIC

MARSILIA HF1

Ribbed tomato combining yield and resistances

HR ToMV:0-2/Va:0/Vd:0/Fol:0/For/Pf:A-E

Flat and ribbed fruits with a bright red colour and a good firmness. Average weight 250-300 grams. Well balanced plant. Grafting recommended. Suitable for long crops in heated and non-heated structures.

+ ORGANIC

DJ597* HF1

Productive yellow ribbed fruit to the modern plant

HR ToMV:0-2/Fol:0/For/Pf:A-E

Ribbed tomato of an attractive yellow colour. Fleshy fruit with soft, sugary taste. Average weight 200 g. Balanced plant that sets well. Variety suited for hydroponic crop production.

DN548 MARNOUAR** HF1

Black ribbed productive and TYLCV resistant

HR ToMV:0-2/Va:0/Vd:0/Fol:0/For/Pf:A-E

IR Ma/Mi/Mj/TYLCV

Black ribbed tomato with an average weight of 280 grams. The plant is continuously vigorous and very productive. This variety is specially adapted to high-tech green-houses.

*The varieties presented under a number are available for testing until their registration in the official catalogue.

HEART

TO YOUR HEART'S DESIRE

CAURALINA HF1

The garden-fresh flavour of tomato

 ToMV:0-2/For/Fol:0

Heart-shaped tomato which combines yield and flavour in every season.
Very attractive red coloured fruit. Strong fleshy variety with excellent flavour. Homogeneous shape and size.
Average weight: 160-200 grams.
Suitable in soil or hydroponic.
Early sowing and long cultivation requires you to graft one head.

+ ORGANIC

HP576

CORIZIA DCC108 HF1

Resistance to TSWV

 ToMV:0-2/For/Fol:0/TSWV(0)

Vigorous and generative plant.
Yielding variety producing nice red, firm and fleshy fruits with a good shelf-life.
Good resistance level to TSWV.
Average weight 250-300 grams.
Suitable for heated and non-heated long crop production.

CORDELIS DCC551 HF1

High yield and powdery mildew resistance

 ToMV:0-2/Fol:0,1/Pf:A-E  On

Vigorous and generative plant very consistent through the all cycle. Very high yield potential with uniform fruit size of 200-250 grams.
Variety with powdery mildew and cladosporium resistances.
Adapted to high tech greenhouses and long cycles.
It is advised to prune the trusses at 3 or 4 fruits.

HP576* HF1

Original pink heart-shaped tomato

 ToMV:0-2/Fol:0/TSWV(0)

Pink heart shape tomato of 250 grams.
Original taste due to a very melting texture in mouth.
Longer fruit set.
Suitable in soil or hydroponic.

*The varieties presented under a number are available for testing until their registration in the official catalogue.

GAUTIER
seeds

PLUM

ORINADE AL558 HF1

Productive and attractive orange roma

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/Pf:A-E

IR Ma/Mi/Mj/On

Roma tomato with a really attractive orange colored fruit. The fruits are homogenous and weight between 100 and 120 grams. This variety is suitable for all crop cycles and greenhouse types.

MYRIADE HF1

The reference for your early crops

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Pf:A-E

IR Ma/Mi/Mj

Plum tomato for loose harvest, very highly productive. Vigorous plant with very good fruit setting. Uniform fruit colour, good shelf-life. Constant quality and fruit colour throughout the harvest period. Average weight: 110-130 grams. For heated protected crop production, in soil or hydroponic.

+ ORGANIC

CYCLADE HF1

The truss plum tomato for big size

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Pf:A-E

IR Ma/Mi/Mj

Plum tomato for truss harvest, combining productivity and big sizes of fruit. Vigorous plant with excellent fruit setting. Truss with 6-8 fruit, good post harvest keeping quality of the vine. Ellongated fruit with uniform colour. Average weight: 120-140 grams. For heated or unheated protected crop production, in soil or hydroponic.

ESTRELLADE HF1

Ideal for pre-cut use (4th range)

HR ToMV: 0-2/Va:0/Vd:0/Fol:0,1/Pf: A-E

Elongated tomato without juice 100 to 120 g. Ideal variety for pre-cut use and sandwich preparation as its low juice content avoids soaking the bread. Vigorous plant with short internodes, easy to grow. High yield potential.

Good Seed and Plant Practices (GSPP) is an international, transparent business chain system whose purpose is to prevent tomato seed and plant lots from being infected by *Clavibacter michiganensis* subsp. *michiganensis* (Cmm). Gautier Semences has been accredited since July 2011. This accreditation covers the entire process of design and production of varieties. This accreditation demonstrates the commitment of all teams in Gautier to deliver the highest level of quality on the market. www.gautiersemences.com

SPECIALTIES

DC577* HF1

Fine Andean tomato with quality flesh and good taste

HR ToMV:0-2/For

Horn-shaped Andean tomato.
Fine shape and intense glossy red colouring.
Very attractive flesh and good taste quality.
Average weight 200 g.
Structured habit, rather short.

CLANIO HF1

The San Marzano type

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1

IR Ma/Mi/Mj

San Marzano type plum tomato.
Vigorous and very productive plant.
Elongated and cylindrical fruits, length about 10 to 12 cm, with green collar.
Average weight 110-130 grams.
Variety suitable for loose harvest.
For protected seasonal crops, in soil.

MIMOSA DJ129 HF1

The eye-catching yellow truss

HR ToMV:0-2/Va:0/Vd:0/Fol:0/For

Intense yellow round truss tomato.
Very good fruit and truss presentation, throughout the season. Five or six fruits on the truss. Good shelf-life.
Average weight 120 grams.
Suitable for heated and non-heated crop production.

EBENO HF1

Intensity of colour and flavour

HR ToMV:0-2/Va:0/Vd:0/Fol:0

Black tomato with round fruit.
Average weight 90-110 grams.
Original presentation and flavour.
For truss or loose crop production.
Average plant vigour and excellent fruit setting.
Even clusters of 6 to 8 fruits.
For heated hydroponic crop production.

EBENO

KAKAO HF1

The black tomato full of flavour

HR ToMV:0-2/Va:0/Vd:0/Fol:0

Very vigorous plant. Slightly flattened globe fruit.
Dark brown with a green collar. Modern plant adapted to early sowing. High yield and taste quality.
Original product with a strong differentiation. Good shelf life.
Calibre: 57-67. Average weight: 130-150 grams.
For protected crop production.

+ ORGANIC

*The varieties presented under a number are available for testing until their registration in the official catalogue.

GAUTIER
seeds

TIMENTA HF1

HR ToMV:0-2/For

Red background with green stripes.
Very tasteful. Average weight: 110-130 grams.
Adapted to early sowing.
For protected crop production, in soil or hydroponic.

TIVERTA HF1

HR ToMV:0-2/For

Yellow background with green stripes.
Taste: Original acid. Average weight: 110-130 grams.
Adapted to early sowing.
For protected crop production, in soil or hydroponic.

+ ORGANIC

TIROUGE HF1

HR ToMV:0-2/For

Red background with yellow stripes.
Average weight: 110-130 grams.
Adapted to early sowing.
For protected crop production, in soil or hydroponic.

BARTOLINA HF1

Tasteful pear-shaped tomato resistant to TSWV

HR ToMV:0-2/Va:0/Vd:0/For/TSWV(0)

Medium vigour plant. Long foliage for a good coverage.
Good fruit setting. Pear-shaped fruit with a slight green shoulder, medium ribbed, uniform bright green colour at maturity.
Smooth and tasteful flesh.
Average weight 240-280 grams.
For non-heated crop production, in soil.

BORSALINA HF1

Original, fleshy and flavoursome

HR Va:0/Vd:0

Pear-shaped tomato for protected crop production.
Plant with indeterminate growth.
Firm fruit with green crown, highly-coloured and flavoursome flesh.
Average weight 180 to 200 g.
Good uniformity in shape, grade and colouring throughout the crop.
For heated protected crops and unheated soil-grown crops.

+ ORGANIC

ROUND

LUTECIA HF 1

High flavor and great looking loose tomato

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/For/Pf:A-E

IR Ma/Mi/Mj/On

Loose tomato with a very balanced flavor profile between sweetness and acidity, crunchy and juicy.
110 grams deep red fruits.
Adapted to high tech and low tech greenhouses.

ADRIATYCO CF516 HF1

Pinton tomato with quality and resistances

HR ToMV:0-2/Va:0/Vd:0/Fol:0,1/Forl/Pf:A-E/TSWV(0)

IR Ma/Mi/Mj/TYLCV

Early plant, vigorous and plastic, with good setting ability in both hot and cold conditions.
Shiny fruits of excellent coloration with dark green shoulder.
Average fruit weight 250 grams.
For non-heated crop productions through the winter or spring.

INTYSAR HF 1

High yield and good post-harvest shelf-life

HR ToMV:0-2/Vd:0/Fol:0,1/For/Pf:A-E

IR Ma/Mi/Mj/TYLCV

Strong and open plant. Very regular fruit setting and short internodes. Long shelf life.
Average weight 150-180 grams.
For non-heated crop productions through the winter.

TYFRANE HF 1

Bush type loose tomato

HR Va:0/Vd:0/Fol:0,1/TSWV(0)

IR Ma/Mi/Mj/TYLCV

Indeterminate type.
Round fruit, slightly flattened without green shoulder, very resistant. Average weight 160-200 grams.
For outdoor bush type production.
